Participants who fail to enter the start area before the Runner's Entrance closes will be **declared DNS (Did Not Start)**.

CUT-OFF POINTS (COP)

Cut-Off Points will be implemented in the Marathon (42K) and Half Marathon (21K) categories for the safety and comfort of participants. The Organizer reserves the right to assign or adjust start corral placements without prior notice. Participants must start the race in the designated start corral indicated on their bib.

Participants are **not permitted to move to a corral with a smaller number** than the one assigned to them, but may move to a corral with a larger number. For example, a participant assigned to Corral 3 may not move to Corral 2 or Corral 1, but may move to Corral 4, Corral 5, Corral 6, and so on.

Violation of the above rules may result in disqualification.

TAX ON PRIZES

According to the regulations of the Government of the Republic of Indonesia, prizes are considered taxable income, as determined by the tax laws of the Republic of Indonesia. In the case of the JAKARTA RUNNING FESTIVAL, the tax on the prize is borne by each winner of the competition.

The final official results and relevant prize money for the Marathon Open and Half Marathon Open will be issued pending the official doping test results from the AIU and/or IADO.

Water stations will be located at designated points along each race course.

Refreshment stations (water, isotonic drinks, fruit, etc.) will be available in the finish area for all categories.

TIMING SYSTEM

- Race timing will use the official timing system selected by the Organizer, with timing chips embedded in the race bib.
- Participants are required to wear the official bib number containing the timing chip throughout the race. The bib must be **worn on the front of the chest, facing forward**, and

must not be upside down, obstructed, or otherwise covered. It must remain clearly visible to race officials and judges.

- Failure to wear the bib or removal of the timing chip may result in the participant not being allowed to start the race or run on the race course, receiving no official finish time, and being disqualified from participation in all categories of the JAKARTA RUNNING FESTIVAL 2026.

START PROCEDURE

To ensure safety, fairness, and comfort, JAKARTA RUNNING FESTIVAL 2026 will apply two types of start systems depending on the race category:

- **Multi-Wave Start:** runners start in waves based on their assigned corral groups.
- **Single Mass Start:** all runners start at the same time.

Despite the different start modes, **Gun Time will be used as the official timing method** for all categories. This means the clock starts at the time of the first gunshot, not when the runner crosses the start line.
